

7 CHALLENGES WITH BECOME AN ORACLE

This deck gathers different realms of spirits in the same box. It symbolizes Unity, and understanding of the diversity that is the nature of the cosmos and universe! It helps you to tune to your intuition and develop your channelling capacities! How many times I have used it for healing readings, and it has proved to be helpful. It brings hope and another layer to tarot readings. It has magical energy! From the first edition, many clients have shared how they felt the energy of this deck and the magic and beauty it emanates. With this new edition, you will get more spirits and archetypes.

Interacting with these cards will help you to develop your psychic abilities, get accurate guidance to have healthy relationships, heal, and manifest what your soul wants. With this workbook, I encourage you to work with the Become an Oracle in different ways, you will find prompts, ideas and inspirations to dig deeper.

CHALLENGE 1

Explore the archetypes of the Oracle

This project started with my own spirit allies and archetypes I worked with for many years, I wanted to have them always with me but also to show them to others and bring them to connect personally with them. Anastasia, the artist, with her sensitivity and sense of poetry understood the energy of these archetypes; each time I gave the title of the card with some information, she made many types of research, and came back to me often with confirmations or questions; more than a portrait or a drawing, she wanted to deliver the energy of the spirit or archetype, a vibration, and every time I felt she was making my allies alive through her drawings and the magic of watercolor.

In order to enter in contact with these beings, you have to define what you believe in, what you consider a spirit or an archetype.

In the beginning of times, there was a separation or an illusion of separation where the Wholeness had to be lived and experienced through different Unities of consciousness.

These Units are not separate, they are all part of the same Diamant, yet we might see them as opposites or conflictual. However, by examining them closely you come to see their similarities and you may recognize yourself in some or all of them.

Explore these beings as part of you, as you represent the wholeness itself. You hold the whole cosmos within you.

CHALLENGE 3

1. WHAT ARE THE DIFFERENT WAYS YOU CAN MEET WITH ITS BEINGS?

You can meet these beings for example on the

- Physical plane: connecting with the card, a statue, the temple of the deity, by eating food or consuming plants that related to them
- Mental plane: studying about them and their myths, journaling, etc.
- Spiritual plan: by making journeys and spiritual connection to them.

This will help you to know more about ever archetype/being and to expand your learning capacities.

2. FOR MORE PROFUNDITY

Identify allies you would like to explore in-depth or otherwise discover. Pick up a book or watch a documentary about him or her and then take meditation journeys to meet him or her personally. This exploration allows you to develop a profound link that can transform your life. This is what I've done with Roses and Flowers as they are my friends and I wanted to be them through my work at the Temple of Roses and plant shamanism.

3. FOR A REGULAR WORK

Identify the allies you will work with each month; these allies will help you identify your orientation for each month and call on their help when needed.

You can also choose them by kingdom by month: Fairy Kingdom, Angel Kingdom, etc.

AN ART JOURNEY WITH MERLIN

Merlin is a great sage-wizard-mystic-visionary and spiritual teacher. He awakens the spark of magic within you, and he helps to see the bigger picture.

He reminds us of our inner wisdom, our creativity, and our courage to manifest positive creations.

This might be the time to manifest something you have been pondering for a long time. What is it that you wanted to do and have been waiting for a long time?

In the next page, I invite you to redraw or color Merlin’s card while focusing your intention on what you would like to create. Notice if some emotion, thoughts or limiting beliefs arise, and create a conversation with Merlin in order to help you with this work. **Find it bellow**

CHALLENGE 8

AN ART JOURNEY WITH BRIGIT – FIND LIGHT AGAIN IN THE MODERN WORLD

I perceive the actual world as an illusion collapsing that was supported by lies and principles that do not sustain life, and thus they were meant to be destroyed. Yet, through all this chaos that we might witness and feel in our bodies and minds, something special stays and survives through the destruction: Light.

Brigit, also called Brigantia (meaning the high one) in Celtic tradition, is the ancient goddess of the poetic arts, crafts, prophecy, and divination. She is also a solar goddess that brings light in the darkness. She helps us to find faith again in difficult situations and to understand the lesson hidden behind them.

In the next page, I invite you to redraw or color Brigit’s card while focusing your intention on light. Notice if some emotion, thoughts arise, and create a conversation with Brigit in order to bring life where there is death and hope where there is despair. Call upon her to cultivate hope and to be a bridge of light for other people. **Find it bellow**
